**Become a Hatha Yoga Instructor**

The Center offers three academic courses in Hatha Yoga, a popular type of Yoga that combines Asana (postures), Pranayama (breath expansion), and relaxation. These courses are based on exercise science, Yogic philosophy, and scientific evidence.

Students who successfully complete these courses are eligible to register with Yoga Alliance as a 200 hour Registered Yoga Teacher (RYT).

**Three Course Sequence Includes:**

<table>
<thead>
<tr>
<th>COURSE 1: Foundations of Hatha Yoga</th>
<th>COURSE 2: Hatha Yoga Philosophy, Lifestyle, &amp; Ethics</th>
<th>COURSE 3: Hatha Yoga Teaching Principles &amp; Methodology</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSPH 4311</td>
<td>3 credits</td>
<td>(CSPH 4312) 3 credits</td>
</tr>
</tbody>
</table>

This course will introduce you to anatomical considerations that are critical to teaching safe, effective Hatha Yoga Asana, Pranayama, and relaxation. In this course, you will learn about gross anatomy, energy anatomy, movement, and effective teaching.

In this course, you will learn about the nature, aim, and extent of Yogic traditions and ethics in classical texts of Yoga. You will also understand how to apply this content in your life off the Yoga mat and as a Hatha Yoga teacher.

This course will provide you the opportunity to study communication and sequencing principles necessary for teaching Hatha Yoga classes. Using knowledge and skills gained during the first two Hatha Yoga courses, you will develop skills to teach Hatha Yoga Asana, Pranayama, and relaxation techniques.

These courses offer a high-quality, yoga teacher training program in a resource-rich academic setting.

Students interested in coursework, but not certification, are also encouraged to register.
